

Ryan Gibbons

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with an interest in front-end web development. Track record of creating and implementing successful front end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Used HTML, CSS, and JavaScript to build websites and web applications.
- Combined my experience as a mathematics teacher and software engineer to build applications related to math concepts

Recent Projects:

[Exponent Rules Projects](#) – A set of four different apps that apply the concepts of the exponent rules in the DOM based on user input.

Freelance Web Developer at Lake Web Services | Eustis, FL

January 2022 — Present

- Developed websites for small businesses in my local area.
- Communicated with clients about their needs and presented proposals covering those needs.

Mathematics Teacher at Lake County Schools | Eustis, FL

July 2016 — Present

- **Team Leader**
 - Communicated information between administration and my team of teachers.
- Implemented a new curriculum and instruction method that took the pass rate for the 8th Grade FSA from 14% and an average score of 317 to 32% and an average score of 322.
